

US 45 Northbound Exit to Bluemound Road and 95th Street Closures

As part of the Zoo Interchange Project, the Wisconsin Department of Transportation (WisDOT) will be closing the US 45 northbound exit ramp to Bluemound Road for approximately two weeks for the construction of a temporary exit ramp to Wisconsin Avenue which will open later this fall. During this time, 95th Street from Bluemound Road to Wisconsin Avenue, will also be closed to construct a cul-du-sac. Work will begin the week of October 1st.

During the construction on 95th Street, the street will be available to local traffic however, on street parking will be restricted. After the cul-du-sac is complete, 95th Street access to Wisconsin Avenue will remain closed long term.

For access to US 45 northbound use 97th Street north to Wisconsin Avenue, then east at Wisconsin Avenue to the entrance ramp on left.

When complete, the temporary exit ramp will provide reliable access to the Regional Medical Center, Wauwatosa, and Milwaukee during reconstruction of WIS 100 in 2013 and the Watertown Plank Road Interchange in 2014.

If you have any questions or concerns during construction, please contact us. We appreciate your patience and understanding during this work.

FUTURE CUL-DE-SAC EXISTING LOOP RAMP 95TH STREET OPEN TO LOCAL TRAFFIC ONLY - BLUEMOUND RD
